MILLIONS FOR PLANESMilitary Experts Hope Fleet will
be on French Front by
SpringBy MAJOR JOSEPH TULASNE,
Head of the French Commission on
Aviation.(Copyright, 1917, by the Newspaper
Enterprise Association.)

The allies are anxiously awaiting the aid of the American air fleet. If this fleet comes in time for the 1918 battles, it will be the deciding factor. The summer of 1917 has been marked by very spirited battles for the supremacy of the air. During these battles the losses of the allies have been great, but those of our enemies still greater.

At present we are getting ready to profit by the lull which the winter rains will cause in air raids, and organize large fleets of well armed and equipped planes for the spring of 1918.

Blind the Enemy.

The American people have understood admirably the part which American aviation is to play in this gigantic struggle, and the enthusiasm of the American people and its will to intervene in order to blind the army of the enemy has enabled congress to pass an aviation bill of \$840,000,000.

The officers in charge of the organization and development of American aviation, and the business men who have spontaneously offered their services and a great deal during the last six months. Aviation schools have sprung up all over the country. Several are at present working at full speed. Hundreds of pilots, full of dash, are being trained there with the same zeal which they showed in the university games. American engineers, acting for the United States signal corps and the aircraft production board of the council of national defense, have designed and constructed a powerful motor and the works shops for motors and air planes are at the height of their organization and development.

Anxiously Awaited.

In France and the other allied countries, provisions have been made to place at the disposal of American aviators the airplanes necessary to enable them to take part in the air battles of next spring.

On the whole western front, extending from the North sea to Switzerland, the arrival of the American air fleet is anxiously awaited. This fleet must consist of a mighty battle fleet and huge bombing squadrons as well as pursuit squadrons, efficiently armed and piloted by daring aviators.

The American fleet of battle planes will enable the allies to secure indisputable supremacy of the air. But they must come at the earliest possible date and take their place in the struggle, because the supremacy of the air for 1918 will be decided during the first months of the spring.

The American air fleet therefore must be at the front by early spring in great numbers. It will be there if American industry turns out its products quickly on a large scale.

The American bombing squadrons also will contribute greatly to success. Since 1915, French aviation has been making bombing raids. The raid upon Karlsruhe in 1915, made by 20 bombing planes, brought upon the Germans a justified terror. In that expedition over 200 persons were killed and wounded, and for many months that reprisal raid stopped German bombing of French towns. But in 1917, bombardment of defenseless English and French towns by German planes began again, in which London and Dunkirk suffered most.

Public opinion in America has been aroused against these non-military bombardments, and has suggested reprisals. Such bombardments have been effected, Dresden and Frankfurt, for example, having been visited by French planes.

But the people of America must realize that it is much more difficult for the allies to carry out bombing expeditions than for the enemy.

The same distance which will take the German machines over London or Paris, will only take the allied machines over Belgian or French towns in the invaded territory, and still quite far from important German towns.

The problem of bombardment is more difficult for the allies, this is why we should go at it with all our might.

At the request of the French government, the government of the United States has decided to organize a powerful bombing fleet.

These bombing squadrons, like the

SEPARATE PEACE
IMPOSSIBLE SAYS
RUSSIAN LEADERDefense of Slav Territory one of
the Fundamentals Urges Min-
isterMUST STAY BY ENTENTE
UNTIL VICTORY COMES

Petrograd, Oct. 30.—Foreign Minister Terestcheko, in addressing the preliminary parliament, today said a separate peace was impossible and that defense of Russian territory was one of the fundamentals of the state.

The foreign minister said the absolute independence of Courland and perhaps of Poland and Lithuania was impossible, as it would mean that Russia would return to the days before Peter. He also asserted complete demilitarization and disarmament and neutralization of canals and straits were impossible.

Russian foreign policies have not changed, since the first statement, emphasizing the principle of no indemnities, no annexation, and the right of nations to self-definition, the minister said.

"The people must understand that the war is being carried on not by government, but by nations," he added. "As the nations began the fighting, so they must end it. Russia and France first held back the foe, and so they must continue to do so."

NONPARTISAN CLANS
HERE IN EFFORT TO
SAVE THE FRAGMENTS

The crisis in the affairs of the league has brought to Bismarck during the week an unusual number of Nonpartisan leaders, including Speaker Howard R. Wood, state manager of the Townley organization; Patrick M. Casey, general manager of the Equity Co-operative packing plant; County Judge Edward P. Totten of Bowman and his brother, George A. Totten, Jr., one of the governor's recent appointees to a place on the state board of regents; R. J. Montgomery of Tappen, president of the Farmers' union, has also been at the state house. The Townley organization is admitted, even by its leaders, to be on the defensive, and it is rather difficult for men who have been carrying the fight to the enemy to adopt new tactics required.

GOVERNOR FRAZIER
PROCLAIMS PLEDGE
DAY FOR DAKOTANS

Governor Lynn J. Frazier has publicly proclaimed Wednesday, Oct. 31, as special food pledge day for North Dakota in furtherance of the food conservation campaign being conducted throughout the nation.

Governor Frazier advises that it is the earnest desire of himself and Dr. E. F. Ladd, federal food administrator, that this day be devoted in the homes and the schools to constructive work and careful study of waste and conservation.

SLACKER LOCATED AT
TACOMA AND EXAMINED;
SWANSON CHANGES MIND

Crosby, N. D., Oct. 31.—Sigmund H. Hall wanted here as a draft deserter, has been located at Tacoma, Wash., and the local board has issued orders for his examination there. Sten Swanson, arrested for failure to register last June, advised the board that he had now changed his mind and is happy in favor of select service, and after consulting with the attorney general at Bismarck, the board registered him and turned him loose.

BEERLESS DAYS
WHEATLESS DAYS
MEATLESS DAYSWisconsin Wants "One Schooner"
Only; Chicago to Eat

PLEDGE FOR THE STATEExpected to Enlist 100,000 Women
to Fight for Conserva-
tion

Chicago, Oct. 30.—Dr. E. F. Ladd, director of the North Dakota food pledge campaign, in which it is expected 100,000 women will pledge support to the government's plan for food conservation, announced today that over 15,000 pledge cards already have been signed by women in the state.

In only one or two of the large cities of the state, however, have the pledge cards been distributed. Tomorrow is set apart by Governor Frazier as food pledge day and will see active circulation of food pledge cards in over 100 cities and towns.

WHEATLESS DAYS.

Chicago, Oct. 30.—Wheatless days may be less cause for dismay to epicureans if the plans of the state council for national defense, who foster a taste for corn are successful. Skilled southern cooks, well versed in the secrets of the proper making of corn bread and other dainty products of maize, are to exercise their craft in an educational campaign to acquaint Chicagoans with the value of the yellow grain. Announcement was made today of a plan to install a corn kitchen in a downtown office building to supply the passing public with corn dainties free of charge. With each mouthful the eater would be urged to take home a corn recipe.

URGE ONE CLASS ONLY.

Milwaukee, Wis., Oct. 30.—The Wisconsin Anti-Saloon league today adopted a resolution petitioning Governor Phillips to call upon "all drinkers that they consume one less glass of beer per day, and that one day each week be observed as 'beerless day'."

The governor is asked to nominate such "beerless day" Sunday, on which day the sale of all forms of intoxicants is already a misdemeanor by state law be enforced urge the petitioners.

The Anti-Saloon league points to a recent speech by the governor in which he said: "When it comes to going a little hungry or sacrificing American boys, I say go a little hungry."

"We also say when it comes to going a little thirsty or sacrificing an American boy, go a little thirsty," and added: "We cannot hope to win the war if we waste more in the beer pail than we save in the dinner pail."

TO SUPERVISE MILLING.

New York, Oct. 30.—Administrative supervision over the operation of all flour mills in the United States will be assumed by the milling division of the United States food administration, effective Nov. 1, it was announced here today. This action will be taken under President Wilson's proclamation of Oct. 5.

RUNS MILE IN CELL
AND MAKES THRILLING
STOP OF RUNAWAYSManiac Confined at Crosby
Startles Populace—Committed
to Jamestown

Crosby, N. D., Oct. 30.—Strangely reminiscent of the chariot race in the Klau & Erlanger production of Ben Hur, but staged in even less space, was Sig McKone's startling experience when he ran a mile and stopped a maddened runaway team with out leaving the Divide county jail cell in which he was confined here. Sten Swanson, who had people in Crosby, business district stepping high and doubling their senses until the source of the disturbance was located in a cell where McKone, pending an inquest as to his sanity, had been confined. "I never was so scared in my life," ejaculated the hero, out of breath and shaking like a leaf, when his jailers reached him. "It was a tough mill-run, but I got 'em." McKone, who was brought here from Weathers, was found insane and committed to the state hospital at Jamestown.

LEFFINGWELL ASSISTANT
SECRETARY OF TREASURY

Washington, D. C., Oct. 30.—Russell C. Leffingwell, a New York lawyer, who has been assisting Secretary McAdoo as special counsel, was today appointed assistant secretary of the treasury, assuming one of two new offices created by the last session of congress.

FIRST WOUNDED
U. S. SOLDIER
IS REPORTEDLieutenant in Signal Corps Hit
by Shell Splinter in the
LegGERMANS SUFFER REVERSE
IN THE YPRES SALIENTChancellor Michaelis is Succeeded
By Bavarian States-
manWith the American Army in France,
Oct. 30.—The first American wounded in the trenches arrived today at a base hospital. He is a lieutenant in the signal corps. He was hit in the leg by shell splinters while working in a communication trench near the first line. The wound is slight. The weather was clear and cold today in the American sector.

London, Oct. 30.—The Germans have been driven back in places to a depth of nearly 1,000 yards in today's British drive on the Ypres front, Reuters correspondent at British headquarters announces.

The fighting today was on a more limited front than the battle of last Friday. The weather was fine.

The principal fighting is taking place toward the outskirts of Passchendaele and in the region of Poelcappelle. The British are reported to have fought their way along several important spurs of the great system of ridges. The Canadians quickly gained a great part of their objectives.

At an early hour today the Canadians had taken a stand in the neighborhood of the famous crest farm, only 400 yards from the heart of the town of Passchendaele.

ATTEMPT RAID.

London, Oct. 30.—Lord French, commander of the British first force, today announced that the German aeroplanes which last night attempted to carry out a raid on the southeast counties of England did no damage and caused no casualties. All the British machines, which went to engage the raiders, landed safely.

SUCCEEDS MICHAELIS.

Amsterdam, Oct. 30.—Count George von Hertling, the Bavarian prime minister, has been appointed imperial chancellor. Former Chancellor Michaelis has been named prime minister of Prussia.

COAL COSTS CUT

OF U. S. CONTROLAnthracite in Fargo Drops 25
Cents the Ton—Situation
Being Relieved

Fargo, N. D., Oct. 30.—The first reduction of coal prices in North Dakota since the government took a hand in the coal situation was announced here today by Fargo fuel dealers. The prices which will become effective Nov. 1 call for a reduction of 25 cents a ton on pea, nut and egg coal. Under the new schedule nut and pea coal will cost \$11.50 and egg \$11.25.

The fuel situation, which has been extremely critical throughout the state, is being relieved here temporarily, according to Robert Blakemore, district fuel administrator.

Teachers Convention;
Wednesday Program

9:00 a m.—Methodist church. Science and Mathematics. History, civics and social science.

At Presbyterian church. Musical education. Teachers of English.

At high school. Graded, consolidated and third class high schools. Agricultural schools. Manual training. Domestic science.

At Baptist church. Parent Teachers' league. The Women's clubs.

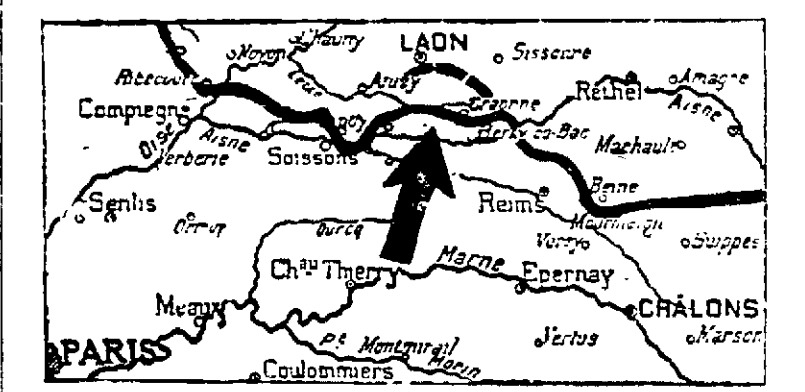

At Commercial club. Modern language and Latin.

2:00 p m.—At Auditorium. General association.

5:00 p m.—At Auditorium. General association. Music by Bismarck Musical club.

LICENSING OF BIG
RETAILERS LIKELY
TO CUT FOOD PRICESBy HARRY B. HUNT.
Washington, D. C., Oct. 30.—Uncle Sam's grip on the food situation tightens perceptibly with the placing under license, Nov. 1, of all large food-stuff dealers, from producer to consumer.

This license, bringing under government regulation meat packers, grain dealers, storage houses, millers, canners, grain dealers, brokers, commission men and food wholesalers, also covers retailers doing a business of \$100,000 per year or more.

This brings under federal control the larger individual grocers and at the chain-store firms, and means there will be at least one government-controlled grocery in every city of size.

For immediate price control the food administration has singled out 20 groups of staple commodities on which regulations will be imposed. The price of these commodities will be followed from producer through the wholesaler and large retailer and the margin of profit in each case strictly limited. Dealers found asking exorbitant prices will be deprived of their license, without which they cannot continue in business.

The profits to be allowed the various middlemen on the staples selected have not yet been determined. Food administration experts, busy on the schedule for weeks, probably will work it out within 10 days. In the absence of exact established margins the food administration will act upon all cases in the light of whether the profits exacted are "reasonable."

It is the hope, eventually, to fix an official price range for all commodities, announcing the prices weekly or oftener, as changes in supply and demand justify. These prices would be carried in all newspapers, the way Chicago and New York produce prices heretofore fixed by the dealers themselves have been announced. This fixing of specific prices, however, has been complicated by the necessity of meeting regional conditions of supply and transportation, and by the many grades that would have to be covered in some commodities. It is expected ultimately a government price list will show the housewife exactly what her retailer is paying. She will then know if he attempts to charge an excessive profit.

The foodstuffs taken immediately under federal control by the licensees of Nov. 1, are:

Wheat, wheat flour, rye and rye flour.
Fresh, canned or cured beef, pork or mutton.
Milk, butter, cheese, lard, lard oil, suet, tallow, oleomargarine, oleo oil and cooking fats.
Sugar, syrup and molasses.
Barley and barley flour.
Oats, oatmeal and rolled oats.
Corn, corn cobs, corn meal, hominy, corn flour, corn starch, corn oil, corn syrup and glucose.
Rice and rice flour.
Dried beans.
Pea seed or dried peas.
Cottonseed, cottonseed oil, cotton seed cake or cottonseed meal.
Soybean oil and meal, palm oil and copra oil.
Condensed, evaporated or powdered milk.
Poultry and eggs.
Fresh and frozen fish.
Fresh fruits and vegetables.
Canned peas, tomatoes, corn, salmon or sardines.
Dried prunes, apples, peaches or raisins.

With the large food-stuff dealers under license, the government will be able to do much more than regulate prices. It will be able to force onto the market any hoards of foodstuffs held in warehouses and cold storage plants, to distribute surplus supplies to points where supplies are short and otherwise to stabilize market conditions.

With supply equalized to meet demand, under government supervision, the natural tendency will be for lower prices. With the government ready to normalize greatly dealers prices will further tend downward.

Up to date the chief work of the food administration has been in preparation. It has about completed its regulation through voluntary cooperation—successful at least in preventing a further price rise. It is now ready to step in with orders, instead of requests.

From Nov. 1, the food administration will DIRECT what these food middlemen shall do, not simply "request" them to be good.

And any middleman who thinks the orders will not be enforced should make a test case.

For his own information it might be said the test case brought by one English potato dealer cost him a fine of \$125,000.

ANTI-VACCINISTS
ORGANIZE LEAGUEPeople Opposed to Enforcement
of Health Board Rule Will
Make Fight

Fargo, N. D., Oct. 30.—North Dakotans opposed to vaccination of pupils in the public schools, meeting in Fargo today, will organize a state association to oppose the recent order of the state board of health requiring the vaccination of all children attending school, and denying school privileges to those who fail to abide by the order. Definite steps will be taken this afternoon, delegates said, to bring a test case to the courts.

INFANTRYMEN AT FORT
SNELLING END LIVESDespondency Over Domestic Relations Result in Suicide of
Private Soldier

Fort Snelling, Minn., Oct. 30.—Two deaths of privates in the 6th infantry, one known to be a suicide, and the other believed to be, were reported by authorities today. Ronald Smith died from the effects of poison. Fred J. Coleman of Chicago, suddenly, it is said, by domestic affairs, shot himself, and died instantly.

RESISTANCE
OF ITALIANS
TIGHTENINGCadorna Elects to Form Defense
Against Invaders Along
TagliamentoMENACE OF NEW DRIVE
FACES TROOPS OF ITALYTeuton Activity Over Entire Front
Indicates Big Strategic
MoveUDINE CAPTURED.
Berlin, Oct. 30.—Udine, the former Italian headquarters, has been occupied by Austro-German forces, the army headquarters announced today.(By Associated Press.)
Italian resistance to the Austro-German onslaught along the Isonzo apparently is stiffening, as General Cadorna prepares to reform his forces along the strong defensive line of the Tagliamento river. The entire Isonzo line has been turned, and the Carso position has been given up to the victorious Teuton soldiers, who are now before Udine, the former Italian general headquarters. Later reports indicated that the Austro-Germans had captured Udine.

Despite the crushing blow suffered by the Italian forces on the northern Isonzo and the consequent retirement all along the river, General Cadorna has the Tagliamento line from which to beat back the invaders from the Venetian plains. Berlin does not report any additional capture of prisoners, and this, coupled with Cadorna's statement that his troops are checking the Austro-Germans, may mean that the force of the first blow has been spent.

Fear New Drive.

Teuton activity is reported in the region of Florence pass. In the Carnic Alps, where the Tagliamento turns westward, a strong advance here might make the Tagliamento line untenable, as also would any Austro-German efforts in force southward from the Carnic and Dolomite Alps. The Italian high command must consider, too, the possibility of a blow from the Trentino. From Swiss sources it is reported that the Austro-Swiss frontier has been closed and that German reinforcements are being hurried to the Italian front. This may mean either supports for the invaders west of the Isonzo or material for a new drive from the mountains southward behind the Tagliamento.

Meanwhile, there are no reports of any activity in the Trentino, and Great Britain and France have taken steps to reinforce the Italians. What form this help is taking has not yet been disclosed.

Raid and small operations are occupying the troops on the front in France. The artillery is very active along the Aisne front and northeast of Ypres in Flanders.

London, Oct. 30.—Satisfaction with the decision of Great Britain and France to help the Italians is expressed by most of the morning papers, which again urged that whatever assistance is possible must be given without delay. There is, of course, no certain indication of the exact form this help will take, but the general assumption seems to be that concrete reinforcements contributed by Great Britain and France will appear on the Italian front. The Morning Post, however, contends that the best way of helping Italy is to keep hammering the Germans on the western front. It adds:

Won't Help Them.
"A German victory over the Italians will not help them if we keep striking hard at Flanders. It is a maxim in war never to allow the strategy to be diverted to the enemy, and every move now is an attempt to create a diversion from the western front."

The Milan correspondent of the Times, in a dispatch filed Sunday, refers to the breaking of the Italian line at certain points where the Germans carried on no heavy preliminary bombardment, and says that on the Carso, to the contrary, not one of the innumerable attacks has given an inch of ground lately to the enemy.

"The troops on the Carso," he writes, "have already passed through hell and beyond."

No details have yet arrived of the results of the fighting on the northern end of the Isonzo front. He says the fighting there for the first hour of attack has been as glorious and epic as its winning in 1915.

Berlin Oct. 30.—The Teutons and Germans are pushing forward toward the course of the Tagliamento river, the statement says. The Austro-German troops advancing from the Carnic mountains reached Venetian soil on the whole front and are pressing forward against the upper course of the Tagliamento.

The retirement of the defeated Italian army is being stemmed at—
(Continued on Page Eight)

North Dakota Educators To Have Opportunity to Hear Indian Songstress

Charles Wakefield Cadman's new Indian opera "Shanewis," only recently written, has been accepted by the Metropolitan Grand Opera company of New York city and will be given its initial production by the greatest songbirds of America. The signed contract from the Metropolitan management reached Mr. Cadman Monday in Fargo, where he and Princess Tsianina appeared in concert last evening. Mr. Cadman and Princess Tsianina will be at the Auditorium on Friday evening, and Bismarck and Missouri slope folk will be given the opportunity of hearing one of the foremost composers of the day.

The lyric of the opera is woven around the life of Princess Tsianina and was written at her suggestion. "Shanewis" is really a psychological study of the polished, highly educated Indian girl and the race problem involved by a paleface lover. Princess Tsianina will assist the Metropolitan management in the stage settings and costumes.

Coming Significant. It is significant that the contract for the first Indian opera to be produced by the greatest aggregation of singers in the world should be received in North Dakota, the state made historic by the American Indian. The coming of one of their number to the capital city of this state as an artist of national reputation leads a romantic atmosphere to the event that her paleface sister could not well create.

When one thinks of Tsianina's appearance in North Dakota, especially

in the capital city, the name of Sakakawea, the brave Indian woman who blazed the trail into the northwest during the time of the Lewis and Clark expedition, immortalized for all time for her bravery and endurance, is recalled. The statue of Sakakawea and her child on the state capitol grounds is one of the tributes paid to this brave woman.

Has Beautiful Voice. Princess Tsianina possesses a mezzo voice of exceptional warmth and color and gives an interpretation to her songs which is delightfully new and pleasing. She is described as beautiful, with a strong, proud, free beauty that differs from her paleface sister as the wild rose differs from the cultivated one. Tsianina, pronounced "Chin-nah," is Indian for "Wild Flower."

The composer and Princess Tsianina were greeted with a large audience in Fargo last evening and were given quite an ovation. The princess was entertained while in that city by Dr. and Mrs. J. W. Campbell, who are intimate friends of people who can certain the singer in California.

Open evenings until further notice.

Convention Notes

FROM BATHGATE. Theo. G. Buchholz of Bathgate is here for the big convention.

PLANK ON BOARD. C. C. Plank of Jamestown is one of the well known educators who arrived early to avoid the rush.

FROM WAHPETON. E. Earle McCullough is the first man from the southwestern part of the state to report for the big doings.

FIRST LADY. Charlotte A. Jones of Cavalier enjoys the distinction of being the first lady delegate to register for the convention.

SMITH IN CITY. Fred W. Smith of Bottineau, president of the state agricultural and forestry school, registered bright and early at the McKenzie.

NELSON ON DOT. C. J. Nelson, superintendent of Bowman schools, formerly superintendent at Beach, was the first convention visitor to register at the Grand Pacific today.

CRAWFORD AND TAYLOR. Lewis F. Crawford of Sentinel Butte, president, and Dr. J. D. Taylor, member of the state board of regents, are here for a session of that body which began at 2 this afternoon. Mr. Crawford also has a place on the program of the N. D. E. A.

MAPS OF CITY. A popular feature of the information bureau at the Grand Pacific hotel is the city map, drawn by students of the manual training department of the high school, of which 500 copies, with a directory of prominent points in Bismarck, are furnished by the city board of education.

FOR RED CROSS FUND. The only sessions at which charges for admission to those other than members of the association will be made are the general meetings Wednesday and Thursday evening, featured by a musical program offered by the Thursday musical club and by readings or addresses from Walter Repp of the Emerson school of oratory and Dr. G. D. Strayer of Columbia university. An admission fee of fifty cents will be charged non-members for each of these programs, and the proceeds will be donated to the Red Cross. Citizens generally are urged to attend all the general and group sessions and are assured a cordial welcome.

Open evenings until further notice.

ECZEMA FOR YEARS CUTICURA HEALS

On Head and Neck. Itched Terribly. Scratched and Became Sore Eruptions. Lost Rest At Night. Had to Have Hair Clipped.

"I suffered from eczema for a number of years and I tried many different remedies but with no effect. The trouble started with itching, then a rash broke out mostly on my head and on my neck. It itched terribly and caused so much scratching that it became sore eruptions and I lost a good deal of rest at night. I had to have my hair clipped right to my head and the rest became very lifeless and dry."

"Then I read of Cuticura Soap and Ointment and was advised to try them so I sent for a free sample. I found the sample such a help that I got several cakes of Cuticura Soap and a box of the Ointment which I used until I was healed." (Signed) Miss Florence Clarke, Dodge Center, Minn., Oct. 7, 1916.

Cuticura Soap to cleanse and purify and Ointment to soothe and heal are not only wonderful healers but wonderful preventives of skin troubles.

For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. R, Boston." Sold everywhere.

HALOWE'EN PRANKS MUST BE KEPT IN BOUNDS, BIG CHIEF

Chris Martineson has 30 Special Officers on for Tonight and Tomorrow

"Have a good time, but keep within bounds," is Big Chief Martineson's message to the youngsters of Bismarck.

"The boys can go as far as they like with harmless fun," said the chunky chief of Bismarck's police department, "but there must be no destruction of property; no infringement of anyone's rights. There will be 30 extra policemen on the job tonight and tomorrow night. They will be in plain clothes and the city will be carefully patrolled every hour. These officers have instructions to strictly enforce every law and ordinance, and boys who do not behave stand a chance of spending the night in the lock-up."

Big Chris has gone through a great many halloweens in Bismarck as a police officer and several others as a boy himself. He believes in preparedness, and he has sworn in as special policemen some of the best runners the city affords. For the small boy with ambitious designs on neighbors' property 'tis well to remember that it's better to be safe than sorry.

This doesn't mean that the boys are not to have any fun, but it does mean, says Chief Chris, that they're to be decent with it.

CONSTITUTIONALITY OF REMOVAL LAW TO COME UP FOR TEST NOV. 6TH

The constitutionality of North Dakota's statute in general providing for the removal of county and municipal officers by the governor and in particular its application to the president of a city commission, who is not specifically named in the statute, will be attacked in supreme court Nov. 6, which date is set for argument of an appeal from a decision of Judge Cole.

WRITE TODAY and I will tell you of the simple home treatment for asthma and bronchitis which has cured many after physicians and change of climate failed. I want you to try it at my expense. Drop me a card and I'll mail you a 25c sample bottle FREE. Geo. J. Thomassen, Box A-136, Des Moines, Iowa.

Don't put on the roof until you investigate

It is poor economy to save money by substituting something inferior but wouldn't you like to save on cost if you could get something better? You can get a better roof for less money if you put on

Certain-teed Roofing

Before its merits were recognized, roll roofing was regarded as a more or less temporary roof—but now CERTAIN-TEED has demonstrated that it is not only a most durable roof, but also the most efficient roof.

It is economical to buy, inexpensive to lay and costs practically nothing to maintain. It is light weight, clean, sanitary, fire-retardant and weather-tight.

It is now used as the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire-retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are the best quality paint materials, ground and mixed with mechanical accuracy. Made for all uses and in all colors. With paint, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.

Stove Polish
YOU
Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

Black Silk Stove Polish Works
St. Louis, Mo.

Use Black Silk Stove Polish from Eckman on grate, registers, stove-tops—Prevents rusting, keeps clean, makes bright for ever, shines or burns. It has no equal for use on automobiles.

"A Shine in Every Drop"

Girls! Juice of Lemons Clears and Whitens Skin

Prepare a quarter pint of lemon beauty lotion at the cost of a small jar of ordinary cold cream

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness, and tan and is the ideal skin softener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy or toilet counter and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach, and bring out the roses and beauty of any skin. It is marvelous to smoothen rough, red hands.

All who wish to attend evening school should call to arrange at once. For particulars write

SOCIETY

Thursday Musical Club to Entertain Educators Here to Attend the N. D. E. A. Meeting; Two Programs Arranged

The Thursday Musical Club is co-operating with the entertainment committee of the North Dakota education association and the club of which Mrs. A. G. Jacobson is president, has arranged to give two programs, one Wednesday evening preceding the dramatic entertainment, Walter J. Trapp of the Emerson school of oratory, who will read "David Copperfield," and Thursday evening the lecture by Dr. Strayer.

The Wednesday evening program will be a symposium of The Bohemian Girl, and will be staged under the direction of Mr. Marquis of this city. The personnel will include Mrs. Arthur S. Bolster, as queen of the tribe; Mr. Marquis, as Gypsy chief; George Humphreys as Count Arnhelm; Mrs. H. H. Steele as Arline, daughter of the count; and Mr. Reynolds of Mandan as Thaddeus. Others taking part will be Mrs. A. J. Arnot, Mrs. Cecil Hurton, Mrs. J. P. French, Mrs. J. A. Graham, Mrs. J. A. Larson, Mrs. F. E. Luehe, Mrs. Ellis Putnam, Mrs. E. H. L. Vesperman, Miss Leslie Keenan, Miss Laura Keenan, Miss Meade, Kathleen Marquis, Mrs. Arnot, Mr. Hughes and Mr. Wessel. Mrs. Arthur Bauer will be at the piano and Donald McDonald will be the violinist. Besides the chorus "In the Gypsies Life You Read," the following excerpts of the opera will be given: "Silence the Lady Moon," "I Dreamt

WOMEN URGED TO SIGN FOOD PLEDGE CARDS

Mrs. P. R. Smyth, in charge of the food conservation campaign in this city, advises that pledge cards can be secured from any of the grocery men and in co-operation with Herbert Hoover and Dr. E. F. Ladd of this state the women of the city are urged to join in the campaign for food conservation. Wednesday is food pledge day in North Dakota, and it is the desire of Mrs. Smyth and her assistants that every woman in the city sign a card before the day ends.

A food demonstration will be conducted here next Monday by Miss Newton of the state agricultural college. Miss Newton will demonstrate substitutes for meat at the domestic science room of the high school.

For Recent Bride.

Mrs. Ward Lewis and Miss Berndt entertained last evening in the home of Mrs. Lewis on Seventh street in honor of Mrs. Edwin F. Wood, a bride of this month. Mrs. Wood will be remembered as Miss Minnie Johnson. The guests included friends of the honor guest employed at the state capitol. A number of informal affairs were given last week for Mrs. Wood, among them a charming dish party given by Marian Mather in the home of Mrs. J. G. Wallace of Avenue B, and one by Miss Vesta Russell in the home of Mrs. E. E. McCurdy.

For Mrs. Haigh.

Ten friends of Mrs. Haigh tendered her a surprise yesterday afternoon in the home of her daughter, Mrs. L. E. Maynard of Avenue A. Mrs. Haigh will leave shortly for Owen, Wis., for an extended sojourn. The afternoon was spent in various social diversions.

To Give Army Luncheon.

At a meeting last evening of the P. E. O. sisterhood in the home of Mrs. M. C. Budlong of Fourth street, plans were made for an army luncheon in the home of Mrs. F. B. Smyth of Third street, given in honor of the P. E. O. sisterhood members here attending the N. D. E. A. meeting. The luncheon will be served at 4:30.

To Serve Teachers.

The general Ladies' Aid society of the McCabe church will serve the teachers with luncheon and dinner Wednesday and luncheon Thursday. The general public is also included in the invitation to patronize the society dinners. The society is also serving the banquet to the N. D. university alumni members Thursday evening.

Many Parties Scheduled.

Many social affairs have been planned for Halloween during the week. This evening the nurses of St. Alexius hospital will give a masquerade dancing party in the Knights of Columbus hall. The guests will be limited to friends of the school.

The annual high school party will be held this evening in the high school gym and will be a costume party. Elaborate plans have been made for this annual affair by the various committees in charge.

A Halloween party will be held in the Bismarck business college this evening. The guests will include the pupils of the schools and their friends. Wednesday evening the A. O. U. W. lodge will hold a hard times dancing party in Patterson hall. This novel affair promises to be one of the enjoyable events of the week.

The Luther League of the Swedish Lutheran church has arranged a shack on social for Wednesday evening in the church parlors. The girls will furnish lunch boxes. Refreshments will also be provided for those not bringing boxes.

Saturday evening the girls and boys of St. George's parish will give a den party in the Knights of Pythias hall.

here for a short visit with her cousin Mrs. P. D. Webb of Fourth street, en route to her Chicago home from the Pacific coast, returned Sunday.

Mrs. John D. Gray, who has been in the city as the guest of Mrs. C. A. Baker of Person Court, has returned to her home in Valley City. A number of informal affairs were given for her during her stay here.

Kathleen Vigness, who has been the last three weeks with his uncle and aunt, Mr. and Mrs. U. L. Vigness of Thayer street, returned to his home in Northdahl last evening.

N. D. UNIVERSITY ALUMNI TO BANQUET VISITING EDUCATORS

The local alumni of the University of North Dakota, of which J. W. Bliss is president, are making elaborate plans for a banquet Thursday evening in the McCabe church for the visiting alumni members and former instructors and students of the university. Bismarck has a large representation of former university instructors and students among them being Chief Justice of the supreme court, A. A. Bruce, formerly dean of the law department; Judge Luther Birdzell, formerly one of the instructors of the

same department, and William Langner, P. E. McCurdy, Supt. N. C. MacDonald, Alvin Edler, Mr. and Mrs. Daniel V. Brennan, M. J. Kernell, Agnes McLean, H. A. Penson, Helen Sullivan, Edward Erickson and Jessie McLeod.

The committee on arrangements desires the names of those attending to be left at the information bureau at the Grand Pacific hotel by Wednesday evening. Miss McLeod is in charge of this part of the program. The affair promises to be one of the most interesting social events planned.

BISMARCK'S DAYLIGHT DEPARTMENT STORE

THREE NEW PAVING DISTRICTS FORMED BY CITY FATHERS

Plans Laid for Extensive Street Improvement Next Year—Court House Square

Paving districts Nos. 3, 4 and created last evening by the city commission on petition of a majority of the property holders affected assure for Bismarck a continuance in 1918 of the extensive street improvement campaign which has been under way the last two years. The three new districts comprise the 77 blocks which already have been noted beginning at First street and extending west to Anderson street including Main Broadway Thayer and Rosser with connecting links north of Avenue B on Raymond Washington Mandan First and Second one block on avenue C from Third to Second and 10 blocks east of Fourth street including up sections of Seventh Eighth and Ninth streets already paved.

The special assessment commission reported on a number of sewer assessments which now are being advertised and a number of reports were received from other improvement work.

Court House Square

Secretary McGuire of the Ford Paving Co. appeared before the commission relative to the paving surrounding the county building. He did not give a definite decision as to the advisability of the company's including this work in its original contract but his statements tended to indicate that the paving would be done at the original price even though for legal reasons a new contract might seem advisable.

Jury Drawn.

Bismarck's jury panel for the December term of court drawn last evening includes some prominent citizens notably Sam Clark, publisher of the Bismarck Tribune, George N. Keniston, secretary of the Commercial Club, E. H. L. Vesperman, secretary of State, Thomas Hall and others too numerous to mention. These jurors will be the first in Bismarck to draw \$4 a day for jury service, the fee having been boosted one dollar by the last legislature. This of course is some inducement.

The complete panel follows: Christy, M. O. Gullikson, E. G. Wanner, F. O. Helstrom, Charles Wambach, A. W. Schwartz, Bart Finney, Jack Porter, John Masson, L. A. Wadd, Charles Knut, George N. Keniston, Charles Stitzer, A. C. White, Sam Clark, Ben Kludt, Carl Peterson, John Vegen, J. J. Jackman, George A. Renner, J. F. Whitney, John G. Cowan, W. J. Renelt, W. K. McCormick, E. Howard, E. H. L. Vesperman, W. J. Wilcox, Thomas Hall, C. M. Henry, Hollis W. B. Mandigo, H. J. Zimmerman, H. W. Reicholt, Frank Reimer, A. W. Gussner, Ernst Vesperman, Frank Swanke.

BISMARCK HAS UNUSUAL JOB OF PAVING ASSETS CONSULTING ENGINEERS

Dr. Frederick Bass of University of Minnesota Compliments City on Work

I can say without reservation that Bismarck has an exceptionally good piece of paving," said Dr. Frederick Bass of Minneapolis, consulting engineer and professor in the University of Minnesota, after completing a thorough inspection of the work in No. 2 district.

The inspection has been far more thorough at every stage of construction than the average city of this size gives," said Dr. Bass, and I am confident that in every particular the taxpayers have received what the contract called for. In fact I have not only had the pleasure of serving as consultant in connection with a piece of work which gave me more satisfaction than any other tests I have made of the cement and asphalt generally, a special assistant engineer has been in the field constantly and inspectors have been employed regularly on the base and on the top coat. As a result Bismarck has a paving of which it may be justly proud which will give good service and which, in my opinion, will prove far more satisfactory for the residence districts than would the much more expensive wood blocks.

While Dr. Bass was not engaged as consulting engineer on the brick paving in district No. 1, he has gone over this work and expresses the opinion that but for one spot which was put in under extremely severe weather conditions, the paving is in excellent shape and will improve with an increase in wear.

Dr. Bass is also engaged as consulting engineer for the city of Minneapolis and is regarded an authority on paving construction.

PATRIOTIC POSTERS

Curator M. K. Gummere Makes Display for Teachers

Dr. M. K. Gummere, curator of the state historical museum, has arranged for the North Dakota Education Association convention a patriotic display of war posters of American and allied forces to be shown in the block rooms. Posters used by Great Britain, France, Canada and the United States were in the first and second series. Many of the posters are attractively exhibited.

Alley to Be Opened—The alley extending from the Lahr building at Thayer and Fourth to the Will seed house at Rosser and Fourth was formally accepted by the city commission last evening and as early as weather permits next spring it will be paved for its entire length.

VAST AIR-SQUADRON TO RAID GERMAN CITIES WILL BE MANNED BY EXPERT AMERICAN AVIATORS

(Continued from Page One)

Battle fleet must be ready for action in the early spring.

Then a systematic bombardment of open German cities carried out relentlessly day and night without interruption in answer to the bombardments the Germans have been carrying on for the last three years in violation of all laws of warfare—will contribute immensely to destroy the morale of the German people and to hasten an honorable peace.

Save Human Lives.

How is it possible to save time and thereby human lives? By spending money in applying to the creation of the American air fleet the wonderful industrial organization of the country, and finally by shipping the finished products to the front, all risks.

The bill for \$400,000,000 is already a great effort, but it is nothing compared with the money needed. By increasing the present appropriation for aviation, per chance to double its amount, by giving important contracts to the industrial concerns will be enabled to organize their resources so as to turn out the products with greater speed.

The sooner American planes appear on the French front the sooner the war will be ended.

Preparations must be made at the same time in Europe and in America. In Europe, great numbers of airplanes and engines of the type now used at the front will be built for the spring campaign. Simultaneously in America, these same planes and motors will at first be built to supplement the English and French factories in order to have as soon as possible the maximum number of battle planes.

Then the new airplanes, more powerful and better armed, will be built to be used during the summer of 1919.

The unlimited resources of American industry will make it possible to carry out these two building programs first, to insure victory in the spring, which will soon be here, and second, to provide for the future by building machines with the latest improvements.

BOARD OF REGENTS BEGINS IMPORTANT CONFERENCE HERE

Changes May be Made in Personnel of Several Institutions

The state board of regents, with all members present and Frazier appointed in control, began at the capitol at 10 o'clock this afternoon an important session, which may result in changes in the personnel of a number of institutions, and perhaps of the staff of the board itself.

The members here are Lewis F. Crawford of Sentinel Butte, chairman, and Dr. J. D. Taylor of Grand Forks, Hanna appointees and Robert Muri of Sisseton, George Totten of Bowman and Rev. C. E. Vermilya of Bismarck. Frazier members Dean E. I. Babcock, acting president of the University of North Dakota, is here and it is possible that a permanent head of that institution to succeed Dr. P. L. McVey, now president of the University of Kentucky, may be selected.

The Nonpartisan members of the board are said to have aims upon Thomas Cooper, director of federal ex-

few crowding of the river, which is greatly swollen.

CHECK ADVANCE.

Rome, Oct. 30.—The Italian retreat continued yesterday, the war office announces. The Italian cavalry is in contact with the vanguards of the advancing enemy. The Italians destroyed bridges over the Isonzo and fought rear-guard actions, by which means they checked the Austro-German advance.

BRITISH BATTERIES SAVED

Italian Headquarters, by the Associated Press, Oct. 30.—After three days with the retreating Italian army, the Associated Press correspondent, who has just arrived at headquarters, is able to state that all the British batteries have been saved. The men suffered much from cold, torrential rains, and hunger during the retreat. As to the general situation of the Italians, in the retreat of the army, the correspondent who has been in the thick of the retirement is prevented from giving details by military necessity.

Last May the British war office announced that British heavy artillery was cooperating with the Italians on the Julian front.

UNCLE SAM TO RESCUE.

Washington, Oct. 30.—The next move by the United States to help Italy in her critical hour will be to divert quantities of coal, supplies and food, intended for other destinations, to the 25 ships already turned over to the Italian government.

By this response to Italy's need—the first actual help to be extended from any of the allies—much material benefit to the fighting forces is expected, as well as encouragement for the civil population.

EXCHANGE

160 acres of good land in Cromwell Township. 40 acres broken, well of good water. Land surrounding selling for \$20 per acre. Mortgage \$630. Would trade for small house in Bismarck of equal value.

BOARD OF REGENTS BEGINS IMPORTANT CONFERENCE HERE

Changes May be Made in Personnel of Several Institutions

The state board of regents, with all members present and Frazier appointed in control, began at the capitol at 10 o'clock this afternoon an important session, which may result in changes in the personnel of a number of institutions, and perhaps of the staff of the board itself.

The members here are Lewis F. Crawford of Sentinel Butte, chairman, and Dr. J. D. Taylor of Grand Forks, Hanna appointees and Robert Muri of Sisseton, George Totten of Bowman and Rev. C. E. Vermilya of Bismarck. Frazier members Dean E. I. Babcock, acting president of the University of North Dakota, is here and it is possible that a permanent head of that institution to succeed Dr. P. L. McVey, now president of the University of Kentucky, may be selected.

The Nonpartisan members of the board are said to have aims upon Thomas Cooper, director of federal ex-
